Ehm, yeah...

We took our time, obviously, and as of now, I can't promise you, that our speed will pick up soon. On the other hand, this chapter might be part of a huge 5-volume-end-of-the-manga release. I just don't know yet XD

I don't even know what's going on in this volume... Taikoubou and Dakki are clashing again, and some characters reaccear. Yeah... and in a Few volumes we'll have our

(ex?-)scanners Favourite Fight, yau. IF you still know his name, it's not too hard to guess who's taking part in it, of course =P

Hm... what else. The avus at Aku-Tenshi.com are doing Fuiisaki's most recent manga "Waq Waq" (yes, that's the name), which necently started in Jump. So visit them and read the First chapter (and the Following ones, as soon as they come out). Yuo uup, read on!
